

SKU #	1936-WT24V-30K	1936-WT24V-40K
Power Per Foot	3.6W / ft	3.6W /ft
Input	24V DC	24 VDC
Color Tempreture	3000K	4000K
Lumen Per Foot	360 lm	374 lm
CRI	90 >	90 >
PCB Width	10 mm	10 mm
Strip Length	16.4"	16.4"
Cutting Length	1.65"	1.65"
Working Temp	-4~104	-4~104
IP Rating	Wet Location IP65	Wet Location IP65
Standards	UL	UL

Accessories

Features

- The Rayco's LED tape is specifically engineered to withstand exposure to moisture, rain, and other outdoor elements, ensuring reliable performance in wet conditions without compromising functionality or longevity.
- Despite its powerful light output, the outdoor COB LED tape is highly energy-efficient, consuming less power compared to traditional lighting sources, resulting in lower energy costs and reduced environmental impact.
- The tape's flexible and slim design allows for easy installation on various outdoor surfaces, including curved or uneven ones, providing versatility in lighting design and layout.
- With a long operational lifespan, the outdoor COB LED tape requires minimal maintenance and replacement, reducing the hassle and cost associated with frequent bulb
