

Low Voltage magnetic LED track lighting is an innovative and versatile lighting solution, ideal for both residential and commercial spaces. This system uses a magnetic track that allows users to easily attach, remove, or reposition the LED light fixtures without the need for complex wiring or tools. The low voltage operation ensures energy efficiency, making it a sustainable option that reduces electricity consumption while providing ample illumination. Additionally, the magnetic track lighting offers a sleek, modern aesthetic, making it a popular choice for those looking to enhance the ambiance of a space with minimal effort.

Model #	VL-2M-P-WH
Connection	Cable
Material	Aluminum
Mounting	Surface
Finish	Black
Maximum Wattage	200W
Input Voltage	24V DC
Dimmable	Yes
Input Current	8A Max
Driver	Remote
Standard	ETL
Rated	Damp
