

DESCRIPTION

An LED corner aluminum channel is a versatile and practical solution for installing LED strip lights in the corners of spaces, such as where walls meet ceilings or floors. This channel is designed to fit snugly into 90 degree angles, providing a smooth, finished look while optimizing the direction of light. The aluminum construction not only ensures durability and excellent heat dissipation but also enhances the overall aesthetic by creating a clean, modern line of light that accentuates architectural features. Ideal for both functional and decorative lighting, LED corner channels are perfect for adding a touch of sophistication to any interior

FEATURES
