

# Trimless Recessed Molding

## DESCRIPTION

---

Introducing the Recessed Trimless Molding channel for LED tape provides a sleek and seamless way to integrate indirect lighting into any space. Designed to be installed flush with walls or ceilings, this channel allows LED strips to be concealed, creating a smooth, uninterrupted surface. The trimless design blends perfectly with surrounding architecture, offering a clean, modern aesthetic. Ideal for indirect or ambient lighting, the recessed channel distributes light evenly, casting a soft, elegant glow that enhances the atmosphere without visible fixtures. It's perfect for accentuating architectural features, highlighting details, or creating a subtle yet impactful lighting effect in both residential and commercial spaces.
