REMOTE-1H-WET

DESCRIPTION

The RAYCOS Lighting remote LED emergency head is a high-performance solution designed to extend emergency egress illumination when connected to a compatible central battery unit. Engineered for durability and reliability, it is UL listed and suitable for wet location applications, ensuring safe operation in outdoor, wash-down, and moisture-prone environments. Featuring energy-efficient, long-life LED technology, the remote head delivers consistent illumination during power outages while maintaining low power consumption. Operating on a wide DC input range of 3V to 24V, it offers flexible compatibility with various emergency lighting systems. Its adjustable lamp heads allow precise light aiming, making it ideal for corridors, stairwells, and exterior pathways where dependable emergency lighting is critical.
