

E26 Socket Adapter Male Screw in

RY-E26-ADAPTER

PROJECT

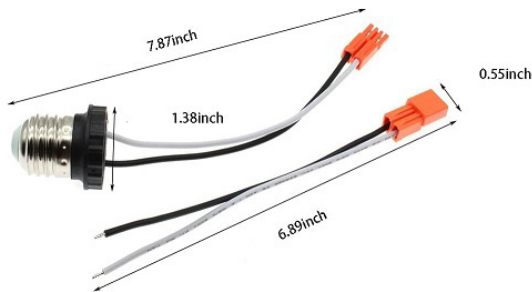

DESCRIPTION

The E26 socket adapter with a medium base male screw is a practical and versatile solution for extending or modifying existing lighting setups. Designed with a durable pigtail lead, this adapter easily screws into a standard E26 socket, allowing for quick and secure connection to LED ceiling lamps, downlights, and various lamp housings. Its flexible wiring makes installation convenient in tight or custom configurations, while the robust construction ensures reliable electrical performance. Ideal for retrofit applications or new lighting projects, this adapter provides a simple way to integrate modern LED fixtures into traditional socket-based systems

SPECIFICATION DETAILS

Packing	1 set of E26 medium base socket to pigtail adapter
Light Source	Line Voltage LED
Wattage	300w
Voltage	120V
Delivered Lumens	BK-874lm (@3000K); BK-925lm (@4000K);
Voltage	Rated 300w
Purpose	Taillight socket is suitable for recessed lights, ceiling lights

Location	Dry
Title 24 JA8	Yes, JA8-2022
Illumination Direction	NA
Material	Aluminum + Polymeric Material
Mounting	Ceiling and Wall Mount, All Orientation
Paint Finish	NA
