

VividDrive 300W 24V

DIMMABLE LED DRIVER

AZ-300W-24V

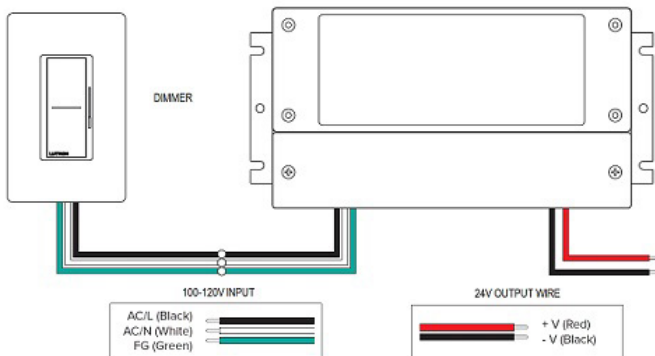

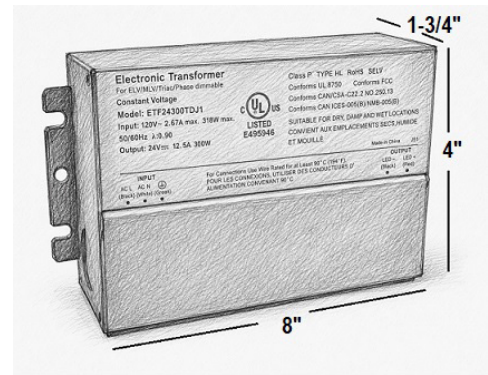

PROJECT

DESCRIPTION

The VividDrive LED Driver is a high-performance dimmable power solution engineered for reliable and efficient LED lighting applications. Designed for both damp and wet locations, it delivers dependable operation in a variety of indoor and outdoor environments. With smooth dimming capability and stable output performance, the VividDrive driver enhances lighting control while maintaining energy efficiency. UL listed for safety and quality assurance, it is an ideal choice for commercial, residential, architectural, and exterior lighting systems requiring durability and consistent performance.

SPECIFICATION DETAILS

Input Voltage	120V AC
Output Voltage	24V DC
Power	300W
Rated Current	12.5A
Minimum Load	40W
Maximum Load	285W
Power Factor	0.98@120V
Dimming	20-100%
Storage Temperature	-20°F to 126°F
Dimming	100% - 20%, ELV or Triac Dimmer (Not Included)
Operating Temperature	-20°F to 126°F
Location	Damp / Wet IP65
Mounting	Ceiling / Wall
Finish	Black
Knock outs	(6) Back, Sides, Bottom
Construction	Composite
Applications	LED Tapes, Puck lights, Accent
Standards	UL Listed for Damp & Wet Locations
